About Azelis, leaders in innovation and technology

Azelis is a leading global distributor of speciality chemicals and ingredients, representing first-class manufacturers across Life Sciences and Industrial sectors. Our activities are built on decades of experience. Founded in 2001, the company has grown by bringing together more than 35 successful companies, many with a history going back over 100 years. We employ more than 1,700 people with offices across Europe, North America, Asia Pacific and Africa. More than half of our employees are in customer-facing roles.

We place partnerships with customers and principals at the heart of our activities and aim to provide effective, sustainable and reliable business solutions. Inherent flexibility allows Azelis Americas to quickly react to market changes, whilst our passion for innovation from our suppliers base stimulates us to continuously enhance our technical service offering.

In each of our chosen specialized market sectors we provide high-quality support and service for our partners at an international, regional and local level. We have an industry-dedicated sales organization and our teams have market experience and application expertise, which combined with our business know-how, enables us to add value in all of our business relationships.

Taking our responsibilities seriously

Azelis Americas is a member of the National Association of Chemical Distributors (NACD), and Responsible Distribution Canada, (RDC) adhering to their respective responsible distribution policies and principles; placing the highest priority on the health, safety, and security of its employees, communities it serves, and the environment.
