

# Cocktail Chemistry

Virtual Happy Hour-Sponsored by BYK

Join professional bartenders who specialize in virtual cocktailing as they demonstrate how to expertly compose three unique cocktails. They'll share tips and tricks to create delicious and instagramable masterpieces, as well as divulge insider secrets so you can wow friends and neighbors at your next socially distanced, outdoor get-together.

- Learn professional mixing techniques
- Get familiar with bar tools and how to use them, as well as what you can substitute from your kitchen
- See how to quickly convert a classic into a mouthwatering mocktail
- Discover how to easily replace store-bought with healthy homemade ingredients
- Receive complete recipes and step-by-step instructions to recreate each drink at home, plus a full list of basic bartending tools needed.

**Learn the art and chemistry behind formulating expertly crafted cocktails in your own kitchen.**

**Plus, we'll be giving away two complete bartending kits during the event!**
